

WSC = Walton School of Commerce -
W180

Dave Savadge (LM43)

I originally purchased the photographically
cropped, cover illustrated in the right-hand
column for the third-class Chicago advertis-

ing cancel. Sometime later, I discovered the
perfin. The pattern is incomplete (holes
missing) and split (bad centering); however,
it is WSC (diagonal),
perfin pattern W180. This pattern is listed in
The Catalog of United States Perfins, Ba-
lough & Balough, 1979 as being used in Chi-
cago, but the user was unknown. The corner
card simply provides a suite number and
street address, but the enclosure (shown on
page 108, identifies the user as the Walton
School of Commerce. Thank goodness for
enclosures.

A photocopy of the cover and enclosure
have been forwarded to John Randall, US
Catalog Editor, for evaluation.

Mr. Herbert Ackerman,
New York City, New York

Dear Mr. Ackerman:

We are pleased to advise you that Mr. Harold J. Frees has been appointed the Walton District Representative in your city.

Mr. Frees is entering upon his duties with genuine pleasure due, as he writes, to the cordial reception accorded him by the accountants he has so far had the pleasure of meeting.

It is a significant fact that a large percentage of our new students is directly traceable to the endorsement of our work by the practicing public accountants. In fact, during the years which have passed since the institution was first organized, the Walton School of Commerce has owed a large debt to the accountants who have given it their enthusiastic support and cooperation.

It is Mr. Frees' intention to call upon you in the near future. We appreciate that you are very busy, and therefore if you can give Mr. Frees a few minutes we shall be very appreciative indeed.

Very sincerely yours,

T. B. Gill
Secretary
